

Donkey Nibbles - Resource Pack for Educators

Donkey Nibbles is a wonderful Resource Pack for teachers to use in primary schools. It contains worksheets and activities that are suitable for Grades 1 to 6. Over 100 pages of information, stories, maths and language worksheets are ideal to be used as part of graded differentiation lessons and additional support lessons. The pack is also an invaluable resource as part of a home-schooling programme.

Teachers, you are all over-worked and under-paid - we know that!

So we have done the work for you! The resource packs include CD's with all the materials ready for your viewing and printing!

English and Afrikaans versions are available and can be ordered in hard-copy form (which includes a ring binder and the CD) or you can choose the bargain option of just the CD! This user friendly option is great as the price will suit your annual budget and it gives you the flexibility to pick and choose activities that are best for your class.

The resource packs were produced by a very experienced teacher on behalf of Eseltjiesrus Donkey Sanctuary which is situated outside the village of McGregor in the Western Cape.

The packs are already in use in many South African classrooms and are being enjoyed by both teachers and children! What some educators have said about the pack:

'Excellent, user friendly pack' ... 'Interesting information and activities for learners'
