

Thank you so much for adopting a donkey!

Please choose your donkey from
the following or you can let us
select a donkey for you:

AMY

Dark brown mare, very friendly, with huge pads of fat on her body. Overfed by her previous rescuers in an attempt to compensate for her dreadful past.

THABO

Small dark brown/black gelding with white "tear-drop" on right cheek. Early twenties and always scruffy!

SHEILA

Dark brown donkey with a roll of fat on her neck - was overfed to be slaughtered for lion food - still very wary of humans.

ALICE

Our youngest donkey, born to a rescued mother. Sister to Ziggy. She shows us how loving and confident donkeys, who have not suffered abuse, can be.

DONKEY

A large, handsome teenager with a beautiful broad cross on his back. Very confident and loves being photographed!

DOWWE DOLLA

Glamorous young mare, dark brown (winter) / black (in summer) with long blonde hair in ears and mane, about ten years old, rescued from horrible circumstances.

ANDY

Handsome large dark brown donkey, one of our most fearful rescued cases. He is slowly learning to trust humans.

ZIGGY

Shaggy long-haired foal, rescued from a "petting zoo" covered in filth. She has bounced back after rehabilitation and is now very friendly and inquisitive.

MINDY

Young light brown donkey with a beautiful dark cross on her back. Signed over to us after her owners realised they did not have the time or skills to care for her.
